

COB reflectors

Aluminium reflectors designed for track- and downlight luminaires with COB light source.

Made as assembled component from drawn segments made of pre-anodised aluminium that allows to maintain high repeatability and top efficiency.

Can be modified to be compatible with different luminaire sizes , LES , light curves and holders.

		<p>CR-72x40-SPOT</p> <p>Material : mirror finish anodised aluminium</p> <p>Diameter: 71,5mm Height : 38mm</p> <p>FWHM angle- ~18 deg - spot beam</p> <p>LES - 14,5mm</p>
		<p>CR-72x40-MED</p> <p>Material : satin matt anodised aluminium</p> <p>Diameter: 71,5mm Height : 38mm</p> <p>FWHM angle - ~23 deg - medium beam</p> <p>LES - 14,5mm</p>
		<p>CR-72x40-WIDE</p> <p>Material : satin matt anodised aluminium</p> <p>Diameter: 71,5mm Height : 39mm</p> <p>FWHM angle - ~35 deg - wide beam</p> <p>LES - 14,5mm</p>
		<p>CR-70x40-SPOT</p> <p>Material : mirror finish anodised aluminium</p> <p>Diameter: 70mm Height : 40mm</p> <p>FWHM angle - ~17 deg - spot beam</p> <p>LES - 14,5mm</p>
		<p>CR-82x32-WIDE</p> <p>Material : mirror finish anodised aluminium</p> <p>Diameter: 82mm Height : 32mm</p> <p>FWHM angle - ~32 deg - wide beam</p> <p>LES - 22mm</p>
